

News & Updates

*Here's what's
coming December
through March*

A Note from Suze

Welcome to the Winter 2017-18 Bulletin.

This is a new adventure for me....as well as for you...and I hope you enjoy the content. If you haven't noticed, I've previously sent out some of our notification flyers by way of this new format.

Instead of a Word program, (*that many of you are already familiar with*), we are now using a newsletter format called **Constant Contact** and you will find that it looks and prints out differently than what you were used to in the past.

I'd love for you to just '*Go With The Flow*' as they say, and enjoy this new and exciting presentation. **You won't need to print out this bulletin.** It is readable and savable in the email on your computer, Ipad or other tablets and all cell phones, just like any other email. **But please....Feel free to call me if you have any questions, [732-833-9972](tel:732-833-9972).**

Your study group coupons and registration form will be coming to you in separate emails. Again, you do NOT need to print this bulletin, only the coupons and registration form. The registration form will come to your email as a PDF. You only need to click on the attachment for it to open.
