

The Study Guide offered three Knit & Stitch groups, each meeting on a different Monday of the month. Knitters of all levels are welcome to join one or more of our 3 knitting groups. Besides enjoying each other's company, we enjoy seeing what people are working on whether it be knitting, needlepoint, quilting or sewing. We get our creative juices going seeing all the fabulous projects members are creating, and, let's not forget the yummy snacks at each meeting. In pre-Covid time, we met in someone's home, now we meet virtually. It's not ideal but it works, and it is always good to see everyone

The hats are donated, many to the University of Maryland Family Medicine Practice. The smallest hats are given to newborns on their one week visit and the larger ones to their siblings.
